Summary

Computer Programming diploma candidate (Apr 2026, GPA 4.0) seeking Junior Backend / Full-Stack roles. Build REST APIs and database-driven web apps using Java (Spring), Python (FastAPI), React, and SQL (MySQL/PostgreSQL). Comfortable with OOP, MVC, authentication, and shipping projects with Git/GitHub and Docker.

Projects

Financial Tracker | FastAPI, React, SQLite, Docker, Fly.io

- Built a full-stack finance tracker with JWT auth (bcrypt) and per-user data isolation.
- Added transactions/accounts/categories features with search/filtering and pagination; built dashboard visualizations.
- Deployed a Dockerized app to Fly.io and set up GitHub Actions CI to run tests and prevent broken builds.

My Book List | Spring Boot · React · TypeScript · PostgreSQL · Docker · Fly.io

- Built a MAL-inspired book catalog with user registration, email verification, and JWT auth (Spring Security + BCrypt) using a service/controller/repository layered architecture.
- Integrated the Open Library API to search millions of books and retrieve trending titles for the homepage; stored book metadata in PostgreSQL via Spring Data JPA.

OHS Remote (Capstone) — Safety Compliance Platform | Python/FastAPI, React, SQL

- Built REST APIs for an OHS manual workflow (orders, company branding/logo upload, document generation).
- Used MySQL with SQLAlchemy + Alembic migrations; containerized app + DB with Docker Compose for team dev.
- Implemented secure document downloads (token-based) and documented endpoints with Swagger/OpenAPI.

Education

Computer Programming Diploma

09/2024 - Expected 04/2026

Sault College, Sault Ste. Marie, ON

- GPA: 4.0/4.0 (Semester 1-3)
- Relevant Coursework: Programming Concept 1 & 2, Advanced Web Applications, Database 1 & 2

Business Entrepreneurship and Technology

04/2023 - 07/2024

Wales Young Institute, Vancouver, BC

- Graduated with 3.86 GPA
- Relevant coursework: Web Design, Management Information System

Skills

- Languages: Java, Python, JavaScript, SQL
- Backend: Spring, Hibernate, Servlets, REST APIs, FastAPI
- Frontend: React, HTML, CSS, Tailwind
- Databases: MySQL, PostgreSQL (schema design, normalization, joins)
- Tools: Git/GitHub, Docker, Linux (CachyOS/Arch-based), Documentation
- Cloud: AWS (EC2, S3, RDS)

Experience

Produce Associate | Pino's Get Fresh — Sault Ste. Marie, ON | 06/2025–Present

- Supported customers in a fast-paced environment; resolved issues quickly and accurately.

Produce Associate | IGA Canada — Vancouver, BC | 06/2023–08/2024

- Assisted customers and maintained quality standards while meeting daily workload targets.
