Portfolio : juan-roy.com

Summary

Computer Programming graduate with 4.0 GPA, strong Python backend development experience, building REST APIs with FastAPI and Spring and deploying containerized applications on AWS. Proficient in SQL-driven database design, Git-based workflows, and Docker.

Projects

Financial Tracker

- Link: finance.juan-roy.com
- Built backend REST API using FastAPI and Python with JWT auth (bcrypt) to ensure per-user data isolation
- Added transactions/accounts/categories features with search/filtering and pagination, also built dashboard visualizations.
- Deployed the Dockerized application to Fly.io and configured GitHub Actions for CI/CD to automate testing and prevent broken builds

My Book List

- Link: mybooklist.juan-roy.com
- Built a book catalog with user registration, email verification, and JWT auth (Spring Security + BCrypt) using a service/controller/repository layered architecture.
- Integrated the Open Library API to search millions of books and retrieve trending titles for the homepage; stored book metadata in PostgreSQL via Spring Data JPA.

OHS Remote (Capstone) - Safety Compliance Platform

- Built REST APIs for an OHS manual workflow (orders, company branding/logo upload, document generation).
- Used MySQL with SQLAlchemy + Alembic migrations; containerized app + DB with Docker Compose for team dev.
- Implemented secure document downloads (token-based) and documented endpoints with Swagger/OpenAPI.

Education

Sault College

Computer Programming Diploma

- **GPA:** 4.0/4.0
- **Coursework:** Programming Concept 1 & 2, Programming Paradigm, Advanced Web Applications, Database 1 & 2, Capstone

Sep 2024 - Apr 2026

Sault Ste. Marie, ON

Tri Ratna Vocational High School

Accounting High School Diploma

- **GPA:** Graduated with 3.9 GPA

Aug 2017 - May 2020

Jakarta, Indonesia

Skills

- **Programming Languages:** Java, Python, JavaScript, SQL
- **Backend Development:** Spring, Hibernate, Servlets, REST APIs, FastAPI
- **Frontend Development:** React, HTML, CSS, Tailwind
- **Databases:** MySQL, PostgreSQL (schema design, normalization, joins)
- **Tools & Version Control:** Git/GitHub, Docker, Linux (CachyOS/Arch-based), Documentation
- **Cloud Deployment:** AWS (VPC, S3, RDS), Fly, Render

Experience

Pino's Get Fresh

Produce Associate

- Supported customers in a fast-paced environment, resolving issues quickly.
- Maintained fresh produce displays and ensured quality standards.
- Assisted with inventory and restocking.

Jun 2025 - Present

Sault Ste. Marie, ON

IGA Canada

Produce Associate

- Assisted customers and answered product inquiries.
- Maintained produce quality and organized displays.
- Met daily workload and stocking targets.

Jun 2023 - Aug 2024

Vancouver, BC

Weltom Children Wear

Sales Executive

- Built and managed client relationships, consistently exceeding sales targets.
- Presented products, negotiated deals, and closed new business.
- Utilized CRM tools to track leads and manage pipeline.

April 2020 - Feb 2023

Jakarta, Indonesia

Outside Sales Representative

- Prospected and acquired new clients through meetings and presentations.
- Negotiated contracts and closed sales.
- Managed leads using CRM tools.

April 2020 - April 2022
