Portfolio : juan-roy.com

Summary

Computer Programming diploma candidate (Apr 2026, GPA 4.0) with strong Python backend development experience, building REST APIs with FastAPI and Spring and deploying containerized applications on AWS. Proficient in SQL-driven database design, Git-based workflows, and Docker. Seeking an early-career in software engineering to apply best practices toward scalable software deployment.

Projects

Financial Tracker

- Link: finance.juan-roy.com
- Built backend REST API using FastAPI and Python with JWT auth (bcrypt) to ensure per-user data isolation
- Added transactions/accounts/categories features with search/filtering and pagination; built dashboard visualizations.
- Deployed the Dockerized application to Fly.io and configured GitHub Actions for CI/CD to automate testing and prevent broken builds

My Book List

- Link: mybooklist.juan-roy.com
- Built a MAL-inspired book catalog with user registration, email verification, and JWT auth (Spring Security + BCrypt) using a service/controller/repository layered architecture.
- Integrated the Open Library API to search millions of books and retrieve trending titles for the homepage; stored book metadata in PostgreSQL via Spring Data JPA.

OHS Remote (Capstone) - Safety Compliance Platform

- Built REST APIs for an OHS manual workflow (orders, company branding/logo upload, document generation).
- Used MySQL with SQLAlchemy + Alembic migrations; containerized app + DB with Docker Compose for team dev.
- Implemented secure document downloads (token-based) and documented endpoints with Swagger/OpenAPI.

Education

Sault College

Computer Programming Diploma

- **GPA:** 4.0/4.0
- **Coursework:** Programming Concept 1 & 2, Programming Paradigm, Advanced Web Applications, Database 1 & 2, Capstone

Sep 2024 - Apr 2026

Sault Ste. Marie, ON

Wales Young Institute

Business Entrepreneurship and Technology

- **GPA:** Graduated with 3.86 GPA
- **Coursework:** Web Design, Management Information System

Apr 2023 - Jul 2024

Vancouver, BC

Tri Ratna Vocational High School

Accounting High School Diploma

- **GPA:** Graduated with 3.9 GPA

Aug 2017 - May 2020

Jakarta, Indonesia

Skills

- **Programming Languages:** Java, Python, JavaScript, SQL
- **Backend Development:** Spring, Hibernate, Servlets, REST APIs, FastAPI
- **Frontend Development:** React, HTML, CSS, Tailwind
- **Databases:** MySQL, PostgreSQL (schema design, normalization, joins)
- **Tools & Version Control:** Git/GitHub, Docker, Linux (CachyOS/Arch-based), Documentation
- **Cloud Deployment:** AWS (VPC, S3, RDS), Fly, Render

Experience

Pino's Get Fresh

Produce Associate

Jun 2025 - Present

Sault Ste. Marie, ON

- Supported customers in a fast-paced environment; resolved issues quickly and accurately.

IGA Canada

Produce Associate

Jun 2023 - Aug 2024

Vancouver, BC

- Assisted customers and maintained quality standards while meeting daily workload targets.
